

EBTECH Conex Box/ (EB-Conex) Modification

Ebtech is a leading provider of both new and used shipping containers. We are a class A customizer and fabricator of Conex box base units to customers' specifications (EB-Conex). Our base platforms include 20' and 40' freight containers that are converted into single or multipurpose units. Ebtech sandwich panel systems are used to achieve customer requirements for insulation, sound reduction or a myriad of other challenges. Whether they are insulation, climate control or ballistic and blast mitigation driven, Ebtech provides durable, economical, and attractive modular designs for industrial, military, commercial and emergency housing solutions.

Applications include:

Storage	Latrines	Barracks	Site Office
Mobile SCIF	Specialized Storage	Mobile Data Center	Remote Power Station
Refrigerated & Climate Controlled Container	Disaster relief Shelter	Blast Bunkers	Ballistic Protection
Dog Kennels	Oil & Gas Solutions	Mobile manufacturing	Heat Resistant <2000 F

Benefits

Excellent structural properties, Seismic, structural, rugged and weather tight
 Design flexibility, Comprehensive range of interior modular sandwich panel configurations
 Wide selection of R-values
 Built-in electrical chase Ideal for Green building projects
 Factory warranteed
